

Supplemental Results

This section provides additional experimental results that complement the computational analysis presented in Section ??.

S2.1 Extended Domain-Specific Analyses

S2.1.1 Additional Terminology Extraction Results

Our analysis identified additional terminology patterns across the six Ento-Linguistic domains:

Domain	Additional Terms	Sub-domains	Cross-dom
Unit of Individuality	89	4	1
Behavior and Identity	134	6	2
Power	Labor	98	
Sex	Reproduction	67	
Kin	Relatedness	76	
Economics	45	2	6

Table 1: Extended terminology extraction results showing sub-domains and cross-domain relationships
