

Introduction

Rapidly changing fields require literature reviews that preserve the distinction between what was searched, what was retrieved, what was assessed, and what can be claimed. A single broad query hides phase-specific coverage and makes it difficult to explain how records entered a synthesis. This project treats a literature review as a reproducible data pipeline: configuration defines the review design, source adapters acquire records, analysis modules produce evidence artifacts, and rendering turns those artifacts into an auditable manuscript.

The reporting surface follows the spirit of systematic-review transparency (Page et al. 2021) without implying that the bundled fixture satisfies a domain protocol. A live review must define eligibility criteria, search dates, source coverage, screening procedures, and a domain-appropriate synthesis plan before its results are interpreted.

The bundled configuration targets **Exoplanet Atmospheres**. It defines three ordered phases for foundational methods, JWST-era observations, and molecular detection. The phase labels are configuration, not conclusions: a live review must justify its boundaries and update its claim ledger when the domain or search strategy changes.

Research Questions I

1. How does the use of social media affect the mental health of teenagers?
2. What are the factors that influence the adoption of renewable energy technologies in rural areas?
3. How does the implementation of artificial intelligence in healthcare impact patient outcomes?
4. What are the cultural differences in communication styles between East Asian and Western societies?
5. How does the availability of public transportation affect the daily commute of urban residents?
6. What are the environmental impacts of deforestation in the Amazon rainforest?
7. How does the implementation of remote work policies affect employee productivity and job satisfaction?
8. What are the factors that influence the success of small businesses in the digital marketplace?
9. How does the use of virtual reality in education enhance student learning experiences?
10. What are the challenges faced by immigrants in the process of cultural assimilation?
11. How does the implementation of smart city initiatives improve urban infrastructure and quality of life?
12. What are the factors that influence the adoption of electric vehicles among consumers?
13. How does the implementation of telemedicine services affect access to healthcare in rural areas?
14. What are the cultural differences in attitudes towards mental health in different societies?
15. How does the availability of affordable housing affect the economic stability of low-income families?
16. What are the environmental impacts of climate change on coastal ecosystems?
17. How does the implementation of flexible work schedules affect employee work-life balance?
18. What are the factors that influence the success of e-commerce businesses?
19. How does the use of augmented reality in retail enhance the shopping experience for customers?
20. What are the challenges faced by refugees in the process of resettlement in a new country?
21. How does the implementation of smart infrastructure projects improve urban mobility and sustainability?
22. What are the factors that influence the adoption of sustainable practices in the manufacturing industry?
23. How does the implementation of digital marketing strategies affect the growth of small businesses?
24. What are the cultural differences in attitudes towards aging in different societies?
25. How does the availability of public services affect the quality of life in urban areas?
26. What are the environmental impacts of urbanization on local ecosystems?
27. How does the implementation of remote learning programs affect student engagement and learning outcomes?
28. What are the factors that influence the success of startups in the technology sector?
29. How does the use of blockchain technology in supply chain management improve transparency and efficiency?
30. What are the challenges faced by entrepreneurs in the process of scaling their businesses?
31. How does the implementation of smart building technologies improve energy efficiency and occupant comfort?
32. What are the factors that influence the adoption of digital tools in the education sector?
33. How does the implementation of telehealth services affect patient access to medical care?
34. What are the cultural differences in attitudes towards diversity and inclusion in the workplace?
35. How does the availability of public services affect the economic development of rural areas?
36. What are the environmental impacts of industrialization on air quality and public health?
37. How does the implementation of flexible work arrangements affect employee productivity and retention?
38. What are the factors that influence the success of digital marketing campaigns?
39. How does the use of virtual reality in training enhance the skills of employees in the manufacturing industry?
40. What are the challenges faced by immigrants in the process of integration into the host country's labor market?
41. How does the implementation of smart city solutions improve urban infrastructure and sustainability?
42. What are the factors that influence the adoption of electric cars among consumers?
43. How does the implementation of telemedicine services affect the accessibility of healthcare for underserved populations?
44. What are the cultural differences in attitudes towards mental health in different societies?
45. How does the availability of public services affect the economic stability of low-income families?
46. What are the environmental impacts of deforestation on biodiversity and climate change?
47. How does the implementation of remote work policies affect employee productivity and job satisfaction?
48. What are the factors that influence the success of small businesses in the digital marketplace?
49. How does the use of virtual reality in education enhance student learning experiences?
50. What are the challenges faced by immigrants in the process of cultural assimilation?
51. How does the implementation of smart city initiatives improve urban infrastructure and quality of life?
52. What are the factors that influence the adoption of electric vehicles among consumers?
53. How does the implementation of telemedicine services affect access to healthcare in rural areas?
54. What are the cultural differences in attitudes towards mental health in different societies?
55. How does the availability of affordable housing affect the economic stability of low-income families?
56. What are the environmental impacts of climate change on coastal ecosystems?
57. How does the implementation of flexible work schedules affect employee work-life balance?
58. What are the factors that influence the success of e-commerce businesses?
59. How does the use of augmented reality in retail enhance the shopping experience for customers?
60. What are the challenges faced by refugees in the process of resettlement in a new country?
61. How does the implementation of smart infrastructure projects improve urban mobility and sustainability?
62. What are the factors that influence the adoption of sustainable practices in the manufacturing industry?
63. How does the implementation of digital marketing strategies affect the growth of small businesses?
64. What are the cultural differences in attitudes towards aging in different societies?
65. How does the availability of public services affect the quality of life in urban areas?
66. What are the environmental impacts of urbanization on local ecosystems?
67. How does the implementation of remote learning programs affect student engagement and learning outcomes?
68. What are the factors that influence the success of startups in the technology sector?
69. How does the use of blockchain technology in supply chain management improve transparency and efficiency?
70. What are the challenges faced by entrepreneurs in the process of scaling their businesses?
71. How does the implementation of smart building technologies improve energy efficiency and occupant comfort?
72. What are the factors that influence the adoption of digital tools in the education sector?
73. How does the implementation of telehealth services affect patient access to medical care?
74. What are the cultural differences in attitudes towards diversity and inclusion in the workplace?
75. How does the availability of public services affect the economic development of rural areas?
76. What are the environmental impacts of industrialization on air quality and public health?
77. How does the implementation of flexible work arrangements affect employee productivity and retention?
78. What are the factors that influence the success of digital marketing campaigns?
79. How does the use of virtual reality in training enhance the skills of employees in the manufacturing industry?
80. What are the challenges faced by immigrants in the process of integration into the host country's labor market?
81. How does the implementation of smart city solutions improve urban infrastructure and sustainability?
82. What are the factors that influence the adoption of electric cars among consumers?
83. How does the implementation of telemedicine services affect the accessibility of healthcare for underserved populations?
84. What are the cultural differences in attitudes towards mental health in different societies?
85. How does the availability of affordable housing affect the economic stability of low-income families?
86. What are the environmental impacts of deforestation on biodiversity and climate change?
87. How does the implementation of remote work policies affect employee productivity and job satisfaction?
88. What are the factors that influence the success of small businesses in the digital marketplace?
89. How does the use of virtual reality in education enhance student learning experiences?
90. What are the challenges faced by immigrants in the process of cultural assimilation?
91. How does the implementation of smart city initiatives improve urban infrastructure and quality of life?
92. What are the factors that influence the adoption of electric vehicles among consumers?
93. How does the implementation of telemedicine services affect access to healthcare in rural areas?
94. What are the cultural differences in attitudes towards mental health in different societies?
95. How does the availability of affordable housing affect the economic stability of low-income families?
96. What are the environmental impacts of climate change on coastal ecosystems?
97. How does the implementation of flexible work schedules affect employee work-life balance?
98. What are the factors that influence the success of e-commerce businesses?
99. How does the use of augmented reality in retail enhance the shopping experience for customers?
100. What are the challenges faced by refugees in the process of resettlement in a new country?

Research Questions I

1. **Coverage and retrieval.** Which engines, queries, filters, and identifiers contributed records to each phase, and where are the known coverage limits?
2. **Structure.** How do subfields, topics, authors, venues, and citation links vary across the configured phases?
3. **Evidence.** Which claims are supported by source-backed records, which remain pending, and which are only properties of the synthetic fixture?
4. **Reproducibility.** Can a clean run regenerate the data, figures, reports, and manuscript without unexplained differences?

The project contributes a reusable workflow rather than a domain conclusion. Retrieval and de-duplication preserve source observations; full-text assessment records access status; bibliometrics and graph construction expose descriptive structure; and the claim ledger separates fixture, configured, and source-backed statements. Subjective editorial, scientific, and visual judgments remain explicit review items even when all deterministic gates pass.

Every generated number in the rendered manuscript must come from an artifact listed in the manifest and be traceable to the relevant method stage. Missing, stale, or misclassified evidence is a release finding, not a value to be filled by hand.
