Supplemental S1 — Literature Review (auto-composed from deep search) I

Composed by `scripts/s_compose_literature_review.py` from the most recent deep-search run. Edit the script, not this file — manual edits will be overwritten on the next pipeline run.

This review covers **3 keyword(s)**, **300 unique paper(s)** (retrieved at up to 100 per keyword from arxiv, crossref). All references are stored in `manuscript/references_deep.bib` and resolved by the combined-PDF pipeline (Pandoc `--natbib` + BibTeX over all `manuscript/*.bib` files).

Papers retrieved: **100** · *per-source contributions:* arxiv=100, crossref=100 · *backend errors:* none
